INTRODUCTION

This 1983 issue of Fire Losses in Ontario features additional statistical data now available as the result of a new reporting system implemented by the Office of the Fire Marshal January 1, 1983.

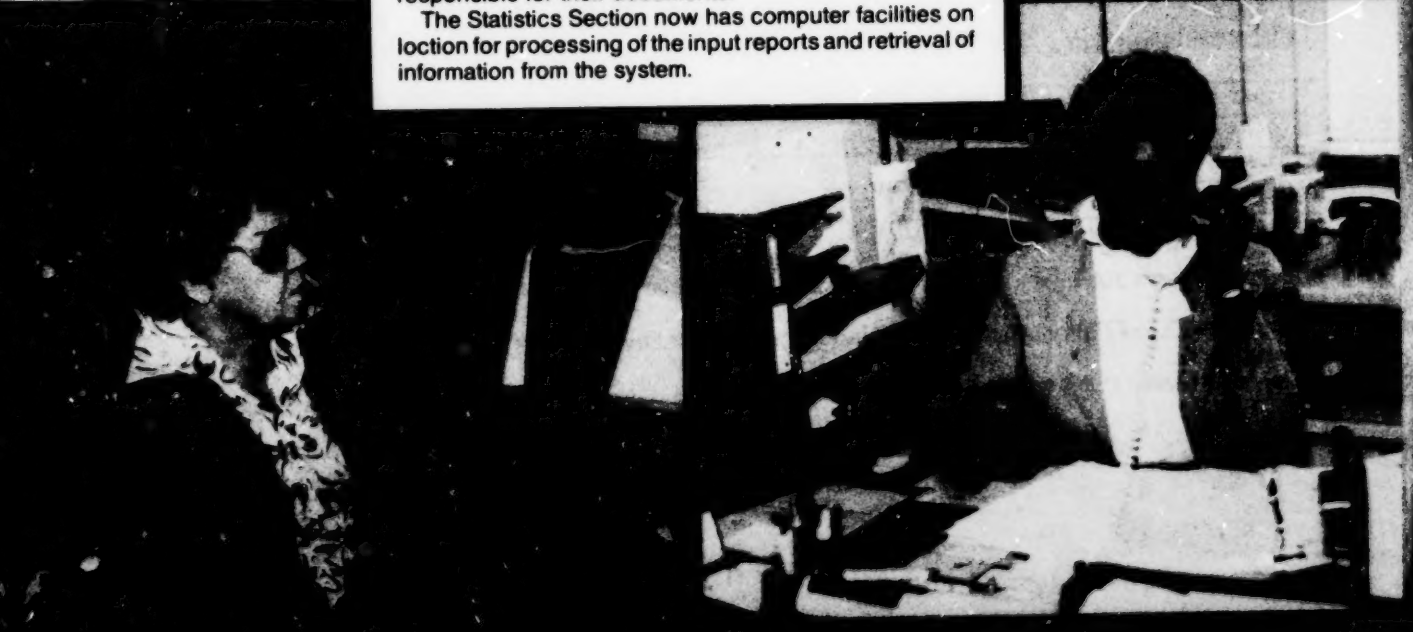
A new vehicle fire report and a modified standard fire report were added to the system in 1983. These changes simplified reporting procedures, provided for more accurate reports and allowed for quicker completion of the various documents.

In this issue, response statistics by location remain under the numerical code. The system is based on Statistics Canada's "Standard Geographical Classification" manual. The first two digits indicate either the County, Regional Municipality or District. The last represents the incorporated municipality.

The Statistics Section of the OFM receives about 15,000 reports each month, including investigation reports on all fatalities, incendiary fires, large loss fires and explosions, as well as reports from fire departments.

To expedite the processing of these documents, the province is divided into geographic area and one staff member is responsible for each area. This is to ensure that members are familiar with their area, and fire personnel can become familiar with the staff members responsible for their documents.

The Statistics Section now has computer facilities on loction for processing of the input reports and retrieval of information from the system.



Fire Losses

TOTAL FIRES	24,038
TOTAL LOSS	$201,637,296

Fire Responses

1983	24,038	279.5	*
1982	24,450	281.05	309.3
1981	25,018	290.06	325.6
1980	26,554	313.14	357.33
1979	26,887	320.7	347.52
